

GeoHCI 2013 Discussion Questions

High-level Questions

- What is 'special about spatial' in your area?
- What are, in your view, some fundamental principles in GeoHCI?
- What are the most important open GeoHCI-related questions in your area?

Methodological Questions

- What are the geospatial methods that you have found most valuable in your work?
- What are the datasets and tools you use in your work, and how have they helped you?

Interdisciplinary Questions

- Are there findings, methods, tools or datasets that you suspect exist across the disciplinary boundary that would help you with your work?
- What fundamental principles of your field are most missing from the other field's research?
- How can we foster more intra- and interdisciplinary collaboration?
